Changes in the Air (Barrier!)

Thursday, July 20th, 12:00pm EST

COST: Attendance is free! Online registration is required. www.bec-rt.org

PRESENTERS: Benjamin Meyer, AIA, NCARB, LEED AP, Building Enclosure Business Director, Siplast

SCHEDULE: Thursday, July 20th, 12pm EST, Virtual Presentation
Link distributed to registrants via email

PRESENTATION SUMMARY: Join us for a presentation on the upcoming changes for air barrier requirements for commercial buildings in the 2022 ASHRAE 90.1 Standard and the 2024 IECC. This presentation will provide expert insight on the code development process as well as clarifications to the Whole Building Performance testing methods and stringency, design phase requirements, material and assembly requirements, and onsite installation verification requirements. We will also discuss the appropriateness of applications and the interaction between the Building and Energy code requirements.

1 LU AIA credit pending approval
